

# Hornet Series

Hornet Series is a creative package combining white or warm white, red, green and blue chips in a single package. This multichips color in one design aim for providing better color mixing and providing the lighting-class performance to the new generation of lighting fixtures.

## Main Applications

Entertainment lighting

Architectural lighting

## Features

Best color mixing performance

Thermal resistance: 3°C/W

IR-reflowable

Best Moisture Sensitivity : JEDEC 1

## 5 Watt Hornet Series

Part No.	Color	Watt	Lumens Flux (typ.)	Test. Current	Vf (V)			CCT/λd(nm)	2θ½ [°]
					Min.	Typ.	Max.		
PC8N-5LTE	Red	5W	32	350mA	1.9	2.2	3.1	620.5~631nm	Lambertian 2θ½=140°
	Green		60		2.8	3.5	4.0	520~530nm	
	Blue		15		2.8	3.5	4.0	460~465nm	
	White		89		2.8	3.5	4.0	X0, S0	

## 10 Watt Hornet Series

Part No.	Color	Watt	Lumens Flux (typ.)	Test. Current	Vf (V)			CCT/λd(nm)	2θ½ [°]
					Min.	Typ.	Max.		
PC8N-10LTE	Red	10W	63	700mA	1.9	2.2	3.1	620.5~631nm	Lambertian 2θ½=140°
	Green		110		2.8	3.5	4.0	520~530nm	
	Blue		28		2.8	3.5	4.0	460~465nm	
	White		152		2.8	3.5	4.0	X0, S0
